

Guidelines for submitting photos for our 'In Our Travels...' page:

- a. The garden scene is 'off-Cape', taken by you. The farther 'off', the better.
- b. Good composition, lighting, focus.
- c. Include location, year taken.
- d. Persons may be included so long as they are incidental to the main subject: garden scenes.
- e. Optionally include name of plant(s).
- f. Optionally, a brief (one or two sentences) description of the scene.
- g. When posted, your photo (s) will be labelled with your initials, location, date, and description if you have included one.
- h. While photographs of single flowers are nice, they don't usually have 'impact' as a photo subject for a web page such as this. For single flowers, we'd like to see your photos of unusual species or blooms composed in an interesting way. Browse our 'In Our Travels ...' page to get idea of what works.
- i. Email your photos to gardenclubofyarmouth@gmail.com or contact a web committee member for other ways to submit photos.
